

What They're Saying: Grain Belt Express Strengthens America

Invernergy announces \$1.7B energy infrastructure deal

Invernergy founder and CEO Michael Polsky joins 'Mornings with Maria' to announce a \$1.7 billion investment in a new energy transmission line, aimed at strengthening America's electricity infrastructure.

"This announcement shows once again how much Missouri can contribute to big infrastructure projects like this transmission line, which will help bring energy savings and reliability to 39 municipal utilities across the state. It's great to see Grain Belt Express continuing to invest in Missouri and support our workers, especially after their recent agreements with Hubbell Power Systems in Centralia and the Missouri Public Utility Alliance."

KANSAS REFLECTOR

Grain Belt Express awards \$1.7B in contracts for transmission line through Kansas, other states

"Kansans working to balance household budgets and run businesses want energy that's affordable and reliable, and that's what we are getting with Grain Belt Express, all without ratepayers being forced to pay for it. I look forward to seeing the positive impact of the thousands of jobs and billions in investment that this project will bring to Kansas."

Daniel Hawkins (R)
Kansas Speaker of the House

WEEK 16 WINS: President Trump Advances America's New Golden Age

May 9, 2025

o Invernergy announced a \$1.7 billion investment in U.S. electric transmission.

This \$1.7 billion investment is just a fraction of the massive \$11 billion being spent on the Grain Belt Express transmission line.

President Trump's energy emergency declaration made it clear we need more power than ever before, and this project will help meet the demand.

⚡ Strengthening America's Electric Grid

Invernergy's \$1.7 billion investment in a transmission line spanning 800 miles will increase reliability for millions of Americans while boosting local economies and cutting energy costs....

"Grain Belt Express is a multi-billion-dollar investment in Kansas and an essential American infrastructure project. The selection of contractors and suppliers with a local presence is just one of the many sizable economic benefits Grain Belt Express brings, in addition to greater energy cost savings and reliability."

Ty Masterson (R)
Kansas Senate President
